

## Refractometers- Erma Japan

We are engaged in sourcing and supplying quality range of Hand Sugar Refractometer "ERMA"Japan. Sourced from Japanese manufacturers, these are manufactured in tandem with latest and advanced technology to confirm international standards. Further, we ensure timely and safe delivery our consignments as per client's requirements and specifications.

**Specifications:**

Range	( A ) 0-32%	( B ) 28-62%	( C ) 58-92%			
Price	1500	1560	2000			
Range	0-10%	0-18%	0-50%	45-82%	0-80%	0-90%
Price	2500	2500	3125	3125	3750	4375

**Models:**

Salinity Refractometer , ERMA, Japan, Range : 0-28%, Range : 0-100%

Hand Refractometer Model D, for URINE, Serum Protein, ERMA Japan make Model : D

Refractometer for Battery / Coolants, ERMA Japan

GEM Refractometer

Digital PORTABLE refractometer imported make Brix : 0-45%, Refractive Index Range : 1.3330 to 1.7000

Digital PORTABLE refractometer imported make Brix : 0-95%, Refractive Index Range : 1.4098 to 1.5318 nD, Salinity : 0-30% U.S.A

Salinity Meter, Digital (Table Model), 3 1/2 Digit LED Display with Salinity Cell & Other Accessories

Digital Specific Gravity + Salinity METER + Temperature Meter, Model DSG - 10 Range : Specific

Gravity : 1.000 - 1.030, Salinity (PPT) : 5 ppt to 40 ppt, temp.: 0°C - 100°C

Digital Salinity + TDS + Temperature Meter, Model : HDS 1024, imported make

**Range** : Salinity : 0.00 - 5.00 % Salt, TDS : 0-999 ppm mg/L, Temperature : 0°C to 100°C.
