

Multi Use Temperature Data logger RC-4

General Description :

Elitech(UK) RC-4 Mini Temperature Data Logger is mainly used for temperature recording during storage and transportation of foodstuff, medicine, chemicals and other products, especially widely used in all links of warehousing, logistics and cold chain, such as refrigerated containers, refrigerated trucks, refrigerated package, cold storage, laboratory, etc.

Features:

1. Directly connect with computer for data exchange, easy operation: When connected to computer, the software will automatically read data, and form reports.
2. Display temperature, time, over temperature alarm, temperature upper/lower limit, temperature Max./Min. value in the LCD screen.
3. Double sensor: Built-in Sensor and External Sensor.
4. Used to record temperature data over a long period of time.
5. LCD to show data and settings.
6. Above one year battery life.
7. 16000 data recording capacity.
8. Data management software & USB cable included for working with PC easily.

Specifications:

Technical Parameters :

Use Type	Multiuse
Temperature measurement range	-30°C to +70°C
Temperature measurement accuracy	±0.5°C
Resolution	0.1°C
Data Capacity	16000 (MAX)
Shelf life / battery	1 year/CR2450 lithium battery
Recording interval	10second to 24 Hour selectable
Protection class	IP65
Size	84mm (l) X 44mm (w) X 20mm (h)
Weight	60 gm
Authenticate	CE, ROHS, GSP, EN12830
Supporting software	Software Elitech URC-4
Report type	all format, which can be read by Adobe Reader
Communication Interface	USB 2.0
